Psychiatric Rehabilitation Specialists  
Established 1977

June 2, 2003

To Whom it May Concern:

Computerish Networks has been servicing our computers for the past one and a half years. Ishay, our technician, has consistently done excellent work, fixing our computer problems in a timely, efficient and expert manner. In addition, he has been very flexible with both his time (coming to fix computers with less than 24-hour notice) and his patience!

I would highly recommend Computerish Networks to any company who wants consistent and knowledgeable service.

Sincerely,

A handwritten signature in blue ink, appearing to read "Cynthia K. Mai", is written over a faint, larger version of the same signature.

Cynthia K. Mai
